

MAYHEM

2002

It's pure
mayhem in the
Year 2002! It's
roller action
like you've
never seen
before!

Mayhem 2002 - The
Smashing Hit You've Been
Waiting For!

MAYHEM 2002!

ROCK'EM — SOCK'EM AND SCORE!

A heart-stopping sound, a flashing steel ball shoots into the Mayhem Arena and you and your rowdy opponent bear after it on wheels of fire! Kneel down — scoop it up—You've got it!

The screaming crowd roars as you race for the flashing goal. You're ready to score but —Wham!— you're blindsided and the ball lurches from your grip. It bounces away down the banked track and you both tumble after it, whacking and swatting all the way. You can't let your rival get there first!

The big bruiser slips around you, highkicks it to and grabs up the heavy sphere, then —wheeee! off up around the outside wall. Ducking down to the track's inside, you charge hard and head him off. A body check and —Bam!— the ball is loose! Sneaking up the ball, you're off!

Up around the outside of the track, you pause a moment to home in on target. The bruiser is fiercely guarding the goal and the fans are going crazy as the scoreboard ticks away the seconds. Gritting your teeth, you scream down the slope and up the other side. He tries to ram, but you slap him aside, aim it up and slam it home. You Score!!!

Powerhouse Collections At Every Location!

American-designed with all the bone-crunching action of football and the wild, hard-knocking excitement of roller derby, MAYHEM 2002 is the futuristic, interactive game of thrills that pits two players against each other, or one player against the merciless Mayhem Computer.

Simple to learn, yet difficult to master, MAYHEM 2002's fast-paced action, authentic announcer's voice, cheering crowds and bruisingly real sound effects are sure to make it the hard-slamming hit of every location!

Boom! The merciless Mayhem Cannon blasts another steel ball into the arena!

You race in to scoop up the ball and then it's a blistering race to the flashing goal!

MAYHEM 2002 is the interactive, game-time CINEMATRONICS Isometric game, and only for the CINEMAT System™—the sensibly priced game system with the faster game action, better graphic effects, easy conversions and complete on-screen hardware diagnostics, and bookkeeping information.

The only CINEMATronics game powered by Cushing Data Systems for the competition with MAYHEM 2002!

MAYHEM 2002 is also available in a universal conversion kit.
